Addition Word Problems

Read & Solve Real-World Addition Problems

Read each story problem. Draw pictures in the box to help you solve it, then write the addition equation.

1) Maya has 4 red apples. Tom gives her 3 green apples. How many apples does Maya have in all?

Draw 4 apples and 3 apples here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

2) There are 5 ducks swimming in a pond. 2 more ducks jump in to join them. How many ducks are swimming now?

Draw 5 ducks and 2 ducks here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

3) Leo found 6 shiny stars in a box. He found 2 more stars on his desk. How many stars does Leo have altogether?

Draw 6 stars and 2 stars here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Addition Word Problems (ANSWER KEY)

Read & Solve Real-World Addition Problems

Read each story problem. Draw pictures in the box to help you solve it, then write the addition equation.

1) Maya has 4 red apples. Tom gives her 3 green apples. How many apples does Maya have in all?

Draw 4 apples and 3 apples here:

$$4 + 3 = 7$$

2) There are 5 ducks swimming in a pond. 2 more ducks jump in to join them. How many ducks are swimming now?

Draw 5 ducks and 2 ducks here:

$$5 + 2 = 7$$

3) Leo found 6 shiny stars in a box. He found 2 more stars on his desk. How many stars does Leo have altogether?

Draw 6 stars and 2 stars here:

$$6 + 2 = 8$$
