Addition Word Problems

Read & Solve Real-World Addition Problems

Read each story problem. Draw pictures in the box to help you solve it, then write the addition equation.

1) Sam has 3 cute kittens. His sister brings home 2 more kittens. How many kittens do they have in total?

Draw 3 kittens and 2 kittens here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

2) Ella picked 5 yellow flowers in the garden. She picked 4 purple flowers. How many flowers did Ella pick in all?

Draw 5 flowers and 4 flowers here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

3) Ben has 2 toy cars on the rug. He gets 6 more toy cars for his birthday. How many toy cars does Ben have now?

Draw 2 toy cars and 6 toy cars here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Addition Word Problems (ANSWER KEY)

Read & Solve Real-World Addition Problems

Read each story problem. Draw pictures in the box to help you solve it, then write the addition equation.

1) Sam has 3 cute kittens. His sister brings home 2 more kittens. How many kittens do they have in total?

Draw 3 kittens and 2 kittens here:

$$3 + 2 = 5$$

2) Ella picked 5 yellow flowers in the garden. She picked 4 purple flowers. How many flowers did Ella pick in all?

Draw 5 flowers and 4 flowers here:

$$5 + 4 = 9$$

3) Ben has 2 toy cars on the rug. He gets 6 more toy cars for his birthday. How many toy cars does Ben have now?

Draw 2 toy cars and 6 toy cars here:

$$2 + 6 = 8$$
