Addition Word Problems

Read & Solve Real-World Addition Problems

Read each story problem. Draw pictures in the box to help you solve it, then write the addition equation.

1) Liam has 4 blue balloons at his party. His mom blows up 4 red balloons. How many balloons are at the party in total?

Draw 4 balloons and 4 balloons here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

2) There are 3 frogs sitting on a log. 5 more frogs hop onto the log. How many frogs are sitting on the log altogether?

Draw 3 frogs and 5 frogs here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

3) Mia ate 2 sweet strawberries for breakfast. She ate 5 more strawberries for a snack. How many strawberries did Mia eat in all?

Draw 2 strawberries and 5 strawberries here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Addition Word Problems (ANSWER KEY)

Read & Solve Real-World Addition Problems

Read each story problem. Draw pictures in the box to help you solve it, then write the addition equation.

1) Liam has 4 blue balloons at his party. His mom blows up 4 red balloons. How many balloons are at the party in total?

Draw 4 balloons and 4 balloons here:

$$4 + 4 = 8$$

2) There are 3 frogs sitting on a log. 5 more frogs hop onto the log. How many frogs are sitting on the log altogether?

Draw 3 frogs and 5 frogs here:

$$3 + 5 = 8$$

3) Mia ate 2 sweet strawberries for breakfast. She ate 5 more strawberries for a snack. How many strawberries did Mia eat in all?

Draw 2 strawberries and 5 strawberries here:

$$2 + 5 = 7$$
