Addition Word Problems

Read & Solve Real-World Addition Problems

Read each story problem. Draw pictures in the box to help you solve it, then write the addition equation.

1) Ava baked 4 chocolate cupcakes. Her brother baked 5 vanilla cupcakes. How many cupcakes did they bake in total?

Draw 4 cupcakes and 5 cupcakes here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

2) There are 3 goldfish in a bowl. Daniel puts 4 more goldfish into the bowl. How many goldfish are in the bowl now?

Draw 3 goldfish and 4 goldfish here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

3) Zoe found 5 sea shells on the beach. She found 3 more sea shells in the sand. How many sea shells does Zoe have in all?

Draw 5 sea shells and 3 sea shells here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Addition Word Problems (ANSWER KEY)

Read & Solve Real-World Addition Problems

Read each story problem. Draw pictures in the box to help you solve it, then write the addition equation.

1) Ava baked 4 chocolate cupcakes. Her brother baked 5 vanilla cupcakes. How many cupcakes did they bake in total?

Draw 4 cupcakes and 5 cupcakes here:

$$4 + 5 = 9$$

2) There are 3 goldfish in a bowl. Daniel puts 4 more goldfish into the bowl. How many goldfish are in the bowl now?

Draw 3 goldfish and 4 goldfish here:

$$3 + 4 = 7$$

3) Zoe found 5 sea shells on the beach. She found 3 more sea shells in the sand. How many sea shells does Zoe have in all?

Draw 5 sea shells and 3 sea shells here:

$$5 + 3 = 8$$
