Addition Word Problems

Read & Solve Real-World Addition Problems

Read each story problem. Draw pictures in the box to help you solve it, then write the addition equation.

1) Ethan has 5 red marbles in his bag. He finds 4 blue marbles on the playground. How many marbles does Ethan have now?

Draw 5 marbles and 4 marbles here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

2) Sophia sees 3 ladybugs on a leaf. She sees 3 more ladybugs on a flower. How many ladybugs does Sophia see altogether?

Draw 3 ladybugs and 3 ladybugs here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

3) Mason has 4 toy trains on the track. He connects 5 more toy trains. How many toy trains are on the track in total?

Draw 4 toy trains and 5 toy trains here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Addition Word Problems (ANSWER KEY)

Read & Solve Real-World Addition Problems

Read each story problem. Draw pictures in the box to help you solve it, then write the addition equation.

1) Ethan has 5 red marbles in his bag. He finds 4 blue marbles on the playground. How many marbles does Ethan have now?

Draw 5 marbles and 4 marbles here:

$$5 + 4 = 9$$

2) Sophia sees 3 ladybugs on a leaf. She sees 3 more ladybugs on a flower. How many ladybugs does Sophia see altogether?

Draw 3 ladybugs and 3 ladybugs here:

$$3 + 3 = 6$$

3) Mason has 4 toy trains on the track. He connects 5 more toy trains. How many toy trains are on the track in total?

Draw 4 toy trains and 5 toy trains here:

$$4 + 5 = 9$$
