Addition Word Problems

Read & Solve Real-World Addition Problems

Read each story problem. Draw pictures in the box to help you solve it, then write the addition equation.

1) Emma has 4 pink erasers on her desk. She buys 4 blue erasers at the store. How many erasers does Emma have in total?

Draw 4 erasers and 4 erasers here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

2) There are 5 busy bees flying near a beehive. 3 more bees fly out of the hive. How many bees are flying in all?

Draw 5 bees and 3 bees here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

3) Logan has 2 slices of pizza on his plate. His mom gives him 3 more slices of pizza. How many slices of pizza does Logan have now?

Draw 2 pizza slices and 3 pizza slices here:

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Addition Word Problems (ANSWER KEY)

Read & Solve Real-World Addition Problems

Read each story problem. Draw pictures in the box to help you solve it, then write the addition equation.

1) Emma has 4 pink erasers on her desk. She buys 4 blue erasers at the store. How many erasers does Emma have in total?

Draw 4 erasers and 4 erasers here:

$$4 + 4 = 8$$

2) There are 5 busy bees flying near a beehive. 3 more bees fly out of the hive. How many bees are flying in all?

Draw 5 bees and 3 bees here:

$$5 + 3 = 8$$

3) Logan has 2 slices of pizza on his plate. His mom gives him 3 more slices of pizza. How many slices of pizza does Logan have now?

Draw 2 pizza slices and 3 pizza slices here:

$$2 + 3 = 5$$
